

All English Day

How did you feel about today's All English Day?
Did you enjoy it? Was it difficult? Easy?
When I was in junior high school,
I was thinking that in Japan, I didn't need English.
We must need Japanese only.
But now I think we must study English,
Because we need to work with the world.
We need to have a relationship with many
countries.
Let's have fun learning English
And try to remember more English words!
