

Year _____ Month _____ Day _____

To all Parents,

NOTICE OF SUSPENSION OF ATTENDANCE DUE TO THE NEW CORONAVIRUS INFECTION

Tatebayashi City, 10th Elementary School
Satoshi Kitamura
Principal

School infectious diseases can result in suspension of your child's attendance, according to Article 19 of the School Health and Safety Act, with the new coronavirus infection meeting the criteria for suspension are as follows:

<The criteria for the suspension of attendance for the new coronavirus infection>
Until 5 days have passed since the onset of the disease and 1 day after the symptoms have subsided.

If you have been infected with the new coronavirus, please take good care of yourself and return to school once you have recovered. When returning to school after recovery, please be aware that all parents and guardians are required to complete and submit the "Medical Treatment Report for Novel Coronavirus Infections". Furthermore, if you are infected with the **new coronavirus and influenza at the same time, you must meet the criteria for both attendance suspension periods.**

Please, fill in the following;

Dear School Principal

Medical treatment report for the new coronavirus infection

Grade _____ Class _____ Number _____ Name _____

| | | |
|---|--------------------------------|----------------------------------|
| 1. Medical Examination (In the case of self-examination, no need to fill in) | 1. Diagnosis date | Year _____ Month _____ Day _____ |
| | 2. Name of medical institution | |

| | | |
|----------------------|---|----------------------------------|
| 2. Medical treatment | 1. Date of onset (In the case of asymptomatic, date of sample collection) | Year _____ Month _____ Day _____ |
| | 2. The day when symptoms get mild (If you are asymptomatic you don't need to fill it out) | Year _____ Month _____ Day _____ |
| | 3. School resumption date. | Year _____ Month _____ Day _____ |

1. The onset date refers to when symptoms like fever, cough, sore throat, and runny nose first appear. In the event of a medical examination, the doctor will determine the date of the start of treatment.
2. Antipyretic drugs reduce fever and improve respiratory symptoms.
3. Prior to return to school, your child should stay home until at least 1-7 days after they no longer have a fever.

If you are infected with the new coronavirus and influenza at the same time, you must meet both attendance suspension standards. (Standards for the suspension of attendance for influenza: 5 days since the first symptoms of the disease appeared and 2 days after the fever has subsided.)
